**3)Install HDD:**

Connect the connector with the HDD.

Put the HDD into the HDD cartridge. Please notice the bottom side is power side.

Screw the HDD to the cartridge. Before you screw the HDD, please be aware that you must level pin 1 of the HDD at pin 1 mark, because the screw hole is different from different HDD brands. Then screw the HDD. You must precisely align the hard disk to the pin connect to ensure correct installation.

Please level pin 1 of the HDD at pin 1 mark

Reverse the HDD and put it into DVR.

Connect the HDD with DVR

6

Lock the cabinet by turning the key clockwise. Close the cap.

#### **4)Basic Operation**

**POWER:** Press POWER button to turn ON/OFF the DVR.

**REC:** Press REC button to start recording.

**PLAY:** Press PLAY button to playback recorded video.

**ENTER+SEARCH:** Press both ENTER and SEARCH buttons to enter the USB Backup Menu.

**ENTER+ZOOM:** Press ENTER and ZOOM buttons to start the PTZ operation mode.

**ENTER+MENU:** Press ENTER and MENU buttons to Lock/Unlock the keyboard.

**REC+STOP:** Press REC and STOP buttons to inactivate RETR.

**REC+PLAY:** Press REC and PLAY buttons to activate RETR.

**NOTE:** If you want to stop recording. In MENU/RECORD set the MANUAL RECORD as NO.

#### **5)Motion Setup**

Please enter the DETECTION function menu.

**A.DET(DETECTION)**

The motion detection on each channel can be turned ON or OFF individually.

**B.** Press the ENTER button to set target-area. Please move the cursor to the position that you want. Press "+" to mark this area.

### 3. Network setting

#### 1) Static IP installation:

##### Step1 (Software installation):

☆ After the installation, there are 6 files and 1 folder in your assigned path (file folder) as below pictures.

##### Step2 (Static IP setting):

☆ In DVR MENU/NETWORK Set SERVER IP, GATEWAY, NET MASK, DNS and WEB PORT which are provided from your local ISP (Internet service provider).

☆ After all network settings are finished, please connect DVR with ADSL cable.

##### Step3 (Connect PC via the Internet):

Click  twice and enter your user name, password (Note: If you have never changed the account before, the username and password are both **admin**) and Server IP which you have set to DVR in step 2. Then click OK To connect.

2) Dynamic IP installation: Please refer to User's Manual.

**Please refer to the DVR instruction manual for more detailed information**
