Lommy<sup>®</sup> Personal Unique tracing of individuals and valuables

PERSONAL SAFETY

PERSONAL SECURITY

**PERSONAL CARE** 

The Lommy Personal is extremely easy to operate and can be programmed for your individual needs.

Lommy Personal is the tracking and emergency device, which guarantees you protection at all times.

With Lommy Personal you will never get lost, you can feel safe and you can protect the people around you.

The Lommy will record any events happening.

The internal battery is large and will ensure an extremely long operating time between charges.

lommy

PERSONAL

Its highly sensitive GPS receiver allows it to operate even in the most difficult conditions.

## Simple, flexible setup

The Lommy Personal can be programmed to:

- Which number it is to call in emergency
- How often and when to transmit location data
- Record all events and positions

#### Ease of operation

The Lommy Personal only has the indicators and buttons nessesary for use.

Additional buttons can be added if nessesary for your application. This eliminates the chance of wrong alarms.

#### Reliable and sensitive

Extreemly good reception is one of the major advantages of the Lommy Personal.

Its antennas are adjusted and optimised for maximum sensitivity. It works even under the most difficult conditions.

### Extended functionality

Some of the more advanced models of Lommy Personal, has

- 2-way radio link i.e. for using safe tags
- DTMF transceiver, for coding and encoding
- 3-way G-sensor, which can be used as movement detector, tilt alarm, assault alarm etc.

## Technical specifications:

Water resistant.

Rechargable battery, 2000 mAh Li-Ion. Standby time up to 250 hours.
