

VS Safety is a world-leading provider of wireless security and home automation solutions. Our company is well recognized for the track record of technological innovations and for the high quality of our products.

## Accessories

### Introduction

The **Repeater RP 15** is designed to increase the effectiveness and versatility of the alarm system. It is a device that makes your system more powerful by increasing the maximum possible distance between the Central Unit and the wireless components. The transmitter only transmits signals from detectors with low signal strength that are learned into the repeater. Avoiding the problems with redundancy of the bandwidth.

The repeater can learn in 20 devices for Re-transmitting of signals.  
Easy Programming and installing.

### Specifications

Power Supply: DC 6V 100mA power adaptor  
Rechargeable battery: 4.6V 600mA Ni-Cd battery  
Battery back-up life: 24 hours  
Operation Range: over 300m in open space.  
LED x 3: Power, Transmission and Fault Indicator.  
Radio frequency: 868 MHz  
Operation Range: 300m in open space.
