Accessories

Introduction

The **SR-8** with its battery-operated feature, gives the true meaning to being totally wire-free and offers around-the-clock operation for a minimum of 3 years.

Specifications

Radio frequency: 868 MHz
Power Supply: "D" Cell Alkaline battery x 4
Low battery Detection
Battery life: 36 months
Siren Output: 104db @ 1m
Code combination: 16,777,216 codes with code hopping
Tamper and jamming protection
Operation Range: 300m in open space
Receiver sensitivity: <-102dBm
Operating temperature: -20C ~ +45C
Humidity: up to 90% non condensing
Dimension: 228mm x 113mm x 54mm
